STARS, or other approved electronic transfers, are an acceptable means of transferring funds between agencies. Cash, credit card or purchase orders are not accepted. DNR does not generally convert data between format and media types. Note: DNR does maintain a copyright on its spatial data, however, these spatial data products are no longer licensed. Much of the Spatial Data is also available for free download at <http://dnr.maryland.gov/gis>. Samples of the data can be viewed at: <http://dnrweb.dnr.state.md.us/gis/data/samples/index.html>.

**Elevation Data (LIDAR):**

Elevation data has been collected via LIDAR technology. Various data types, including Mass Points, Digital Elevation Model, Intensity Imagery, First Return Points, and Last Return Points are available. See <http://dnrweb.dnr.state.md.us/gis/data/lidar/> for more information on various data sets, including sample files that can be downloaded. The Mass Points data can be downloaded from [http://www.csc.noaa.gov/crs/tcm/about\\_ldart.html](http://www.csc.noaa.gov/crs/tcm/about_ldart.html) (the LDART site). Please contact the Department of Natural Resources if interested in purchasing this data.
